SUMMARY

Aspiring Software Engineer and Full Stack Developer skilled in Java, JavaScript, React.js, Node.js, Express.js, and MongoDB. Built and deployed multiple real-world applications with features such as authentication, role-based access control, cloud storage integration, and RESTful APIs. Experienced in leading project development and collaborating with teams to deliver scalable solutions. Seeking opportunities to leverage technical skills and problem-solving abilities in software development.

EXPERIENCE

Talentrise Technokrate Pvt. Ltd.

Node.js Backend Intern

Remote

Jun 2026 – Present

- Developed RESTful APIs for an eCommerce platform using Node.js, Express.js, MongoDB, and Mongoose following the MVC architecture.
- Designed and implemented backend modules including Product Management, Category Management, Cart, and Order Management with scalable database schemas and CRUD operations.
- Implemented request validation using Zod, centralized error handling, and standardized API responses to improve application reliability.
- Built features such as product search and filtering, inventory validation, unique product slug generation, and soft/permanent delete functionality.
- Collaborated with the development team using Git and GitHub, participated in code reviews, API testing with Postman, debugging, and daily Agile development activities.

PROJECTS

UrbanNivas – Rental Listing Platform | [Live Link](#)

Node.js, Express.js, MongoDB, Passport.js, Cloudinary

Jul 2025 – Dec 2025

- Developed a full-stack rental listing platform enabling users to add, edit, and delete property listings with secure authentication.
- Implemented admin role-based access allowing approval and moderation of listings.
- Integrated Cloudinary with Multer for optimized image uploads and storage.
- Added review functionality to improve user engagement and listing credibility.

CNC Test Series Platform | [Live Link](#)

React.js, Node.js, Express.js, MongoDB, JWT

Jan 2026 – Jun 2026

- Developed a full-stack EdTech platform for CA students with dedicated modules for Foundation, Inter, and Final exam preparation.
- Implemented secure JWT-based authentication, authorization, and RESTful APIs for user management and protected resources.
- Built responsive React.js interfaces and integrated mock tests, PDF resources, and course management features.
- Managed the complete development lifecycle from requirement analysis and backend development to deployment on Render.

TECHNICAL SKILLS

- **Programming Languages:** Java, SQL
- **Frontend:** HTML5, CSS3, JavaScript, React.js
- **Backend:** Node.js, Express.js, RESTful APIs
- **Databases:** MongoDB, Mongoose
- **Authentication & Validation:** JWT, Passport.js, Zod
- **Tools & Platforms:** Git, GitHub, Postman, VS Code, Cloudinary, Render
- **Core Concepts:** Object-Oriented Programming (OOP), Data Structures & Algorithms, DBMS, MVC Architecture

LEADERSHIP

- Directed a team of 3 members on the major Project.
- Supervised project development and coordination to ensure seamless teamwork and continuous progress.

CERTIFICATIONS

- Python Basics from University of Michigan – Coursera
- Object Oriented Programming in Java from University of California San Diego – Coursera
- ReactJS from Infosys Springboard
- Database Management System – Science Graduates Infosys Springboard

EDUCATION

Noida Institute of Engineering and Technology

Bachelor of Technology in Information Technology

Greater Noida, U.P

2022 – 2026
